Technical projects

Full Stack Chat Application

- Developed a real-time chat application using HTML, CSS, JavaScript, React, Node.js, and Express, supporting seamless user-to-user communication.
- Implemented Socket.IO for instant message delivery, real-time updates, and live chat interactions without page refresh.
- Built a responsive and user-friendly interface with React, HTML, and CSS, ensuring smooth performance across devices.
- Created RESTful APIs with Node.js and Express to handle message storage, user management, and backend logic.

Arya Arcade Commercial website

- Designed and implemented responsive UI layouts using HTML and CSS to ensure a clean and modern look.
- Added interactivity and dynamic behaviour using vanilla JavaScript.
- Ensured cross-browser compatibility and consistent rendering across different screen sizes.
- Identified and fixed UI bugs and layout issues to improve overall user experience and stability

Personal Portfolio Website

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects and skills.
- Structured code with a focus on readability, reusability, and maintainability.
- Implemented basic interactivity and navigation using JavaScript for better user engagement.
- Performed testing and debugging to ensure consistent performance across browsers and devices.

Certifications

JavaScript Certificate - Great Learning

Web development - IBM Skill Build.

Leadership Certificate - NXT Wave.
